Induction Cooker

Commercial Induction Cooker Series features SCHOTT CERAN® glass surface for optimal durability, temperature resistance and energy efficiency. Designed with German glass-ceramic technology, the glass surface is able to withstand sudden temperature shocks up to 1,380°F/750°C and intensive use of a busy commercial kitchen. Effectively concentrating the heat in a confined area of surface while keeping the rest of surface relatively cool, induction cooker helps achieve cooking safety and energy saving.
